

IAG Vendor Portal assessment process

The above diagram describes IAG's supplier risk assessment process. For more information on how to access IAG's Vendor Portal and FAQ, please see overleaf.

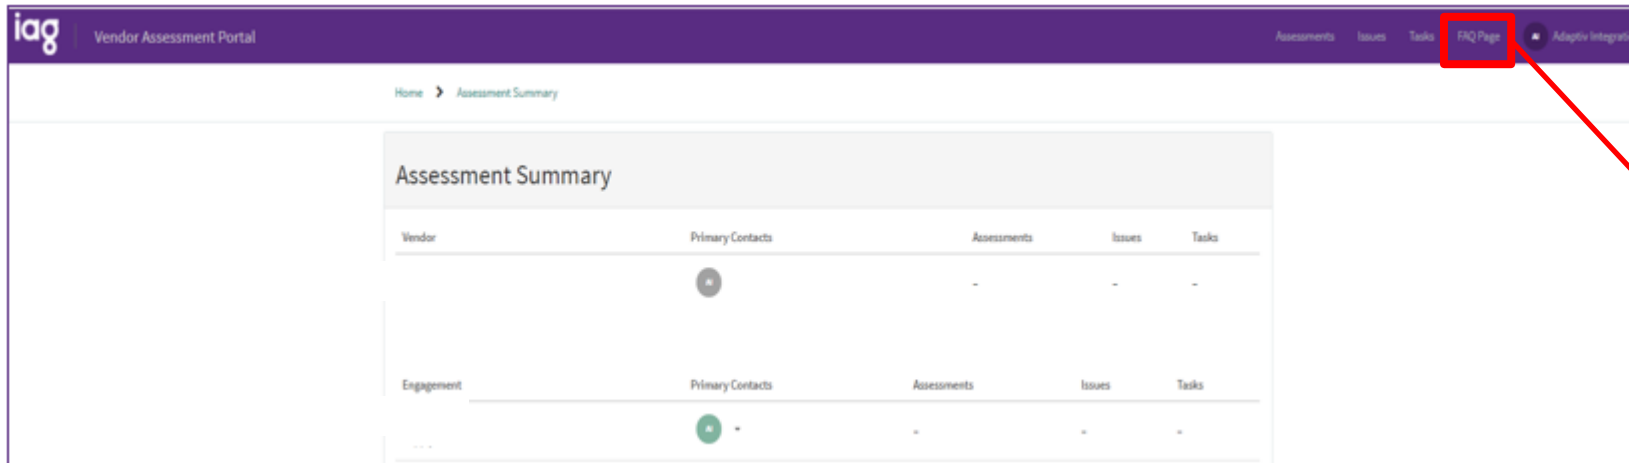

Log in and find support on the IAG Vendor Portal

1. When first accessing the IAG Vendor Portal as a supplier, you will receive an initial 'Registration' email which will invite you to register on the IAG Vendor Portal using your email address as the login ID and a temporary password. You will then be requested to update your password.
2. Please use your updated password for all future interactions with the IAG Vendor Portal.

If you do not log in successfully due to errors in the input of the temporary password, you will be locked out and the registration email will need to be re-sent by your IAG contact.

3. As a Supplier, once you have logged in, you will be directed to an Assessment Summary page which will show an overview of your IAG Engagements.
4. For support in navigating the portal, please refer to the "FAQ Page" menu item in the right corner of the banner at the top of the page. The FAQs will provide tips and direct you to the relevant section of the portal where required.
5. For any additional support required, please get in touch with your IAG Relationship Contact.
